

## INDUSTRIAL TRUCK-CAT B (COUNTERBALANCE LIFT TRUCKS)

Cat	Operator	Power	Truck Description	Learner:Instructor Ratio	Duration
B1	Rider	Electric & i.c.e	Lift truck up to and including 5 tonnes	3:1 2:1(Refresher) 2:1 (Conversion)	5 days (Novice) 2days(Conversion) 1day (Refresher)
B2	Rider	Electric & i.c.e	Lift truck over 5 tonne - up to and including 15 tonne	3:1 2:1(Refresher) 2:1 (Conversion)	5 days (Novice) 2days(Conversion) 1day (Refresher)
B3	Rider	Electric & i.c.e	Lift truck over 15 tonne	3:1 2:1(Refresher) 2:1 (Conversion)	5 days (Novice) 2days(Conversion) 1day (Refresher)

The HSE states that all operators of industrial trucks and work equipment must be appropriately trained and documented records of training held.

LSCL currently provide a wide selection of ITSSAR accredited Industrial Truck courses ranging from a basic novice operator to an existing certificate holder's refresher course.

We can offer you the choice of location at our own training centres, or at your premises.

On-site training can only be authorised subject to a site visit by one of our qualified instructor / assessors.

All of our courses comply with the HSE ACOP L117.

### Course contents

The course consists of theoretical and practical sessions with particular emphasis on safe operation.

The course also covers:

- Health & Safety at Work Act
- Pre Use Inspection
- Operators Safety Code
- Stability
- Operating in Confined Spaces

### Testing

Continuous assessments will be made of candidates during the practical elements of the training followed by formal theoretical and practical skills testing in order to demonstrate competence.

### Certification

Successful completion of the course will lead to the issue of an accredited ITSSAR certificate.
